

# Twilio API Docs Hackathon Sample

---

This repository provides hands-on documentation and sample code for integrating Twilio's SMS API to send messages programmatically using Python.

## Contents

- [docs/twilio\\_sms\\_api\\_guide.md](#): Step-by-step guide with code examples.

## Prerequisites

- Python 3.x installed
- Twilio account and phone number
- Twilio Python library (`pip install twilio`)

## Usage

Follow the instructions in the [docs/twilio\\_sms\\_api\\_guide.md](#) to configure your credentials and run the example script.
